ABSTRACT

This document presents a guide to newsletters and other serial publications concerned with topics of interest to educators and researchers working with young children. The guide is divided into three main areas: (1) General Early Childhood Newsletters, (2) Special Interest Newsletters, including newsletters on such topics as bilingual/biracial, legislative developments, open education, parent education/involvement, special projects, television, and educational trends, and (3) Selected Journals and Magazines. Each newsletter listing contains title of publication; scope note; price; frequency of publication, approximate number of pages per issue, and ordering address. The same information, except for scope notes and number of pages is provided for the journals and magazines. (DP)

INTRODUCTION

Early Childhood Newsletters: A Selected Guide includes newsletters and other serial publications concerned with topics of interest to educators and researchers working with young children. The guide is divided into three main sections: General Early Childhood Newsletters, Special Interest Newsletters, and Selected Journals and Magazines.

Each newsletter listing contains title of the publication; scope note; price; frequency of publication; approximate number of pages per issue; and ordering address. The same information, except for scope notes and number of pages, is given for publications in the list of Selected Journals and Magazines.

In order to include only those publications of general interest, it was necessary to omit some valuable regional newsletters, such as those produced by many Head Start Resource and Training Offices, branches of the National Association for the Education of Young Children, Regional 4-C's, and local associations.

All newsletters, magazines, and journals appearing in this guide were selected from among those received by the ERIC Clearinghouse on Early Childhood Education. If you would like to have your organization's publications included in future listings, please send a sample copy to:

ERIC/Early Childhood Education

Postscript

The Educational Resources Information Center/Early Childhood Education Clearinghouse (ERIC/ECE) is one of a system of 16 clearinghouses sponsored by the National Institute of Education to provide information about current research and developments in the field of education. The clearinghouses, each focusing on a specific area of education (such as early childhood, teacher education, language and linguistics), are located at universities and institutions throughout the United States.

The clearinghouses search systematically to acquire current, significant documents relevant to education. These research studies, speeches, conference proceedings, curriculum guides, and other publications are abstracted, indexed and published in Research in Education (RIE), a monthly journal. RIE is available at libraries, or may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Another ERIC publication is Current Index to Journals in Education (CIJE), a monthly guide to periodical literature which cites articles in more than 560 journals and magazines in the field of education. Articles are indexed by subject, author, and journal contents. CIJE is available at libraries, or by subscription from Macmillan Information, 909 Third Avenue, New York, New York 10022.

The Early Childhood Education Clearinghouse (ERIC/ECE) distributes a quarterly newsletter ($2.00 - 4 issues) which reports on new programs and publications, and RIE documents of special interest. For a complete list of ERIC/ECE Publications, or if you would like to subscribe to the Newsletter write: Publications Office/IREC, College of Education, University of Illinois, 805 West Pennsylvania Avenue, Urbana, Illinois 61801. All orders must be accompanied by check or money order, payable to the University of Illinois. Sorry, we cannot bill.
